## **FOR IMMEDIATE RELEASE**

**January 19, 2010**

**Contact:** Public Information Office, 974-5017

### **Gun Shows at 10601 North Lamar Boulevard**

Federal Immigration, Customs, and Enforcement (ICE) agents worked cooperatively with the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) agents last year in a long-term operation targeting illegal gun trafficking that was stemming from local gun shows. Austin Police Department Firearm Review Unit detectives assisted in the Austin portion of the operation. They observed and participated in multiple arrests of prohibited persons (primarily convicted felons and illegal immigrants) that obtained firearms illegally at a local gun show. Federal convictions were obtained in a majority of the cases.

Virtually all of these sales to prohibited persons were made by unlicensed dealers or private citizens, both inside the gun show and in the parking lot of the gun show. While the sale of firearms between private citizens is not illegal, the anonymity of these sales in or around the event created an easy avenue for illegal immigrants or convicted felons to acquire firearms. Because of this recurring activity at a single location, the Firearm Review Unit referred the case over to the APD Nuisance Abatement Unit.

Due to the history of criminal activity at the gun show, the Nuisance Abatement Unit scheduled a meeting between the property lessee (HEB Grocery), the building sub-lessee (Andrew Perkel a.k.a Austin Market Place), the event promoter (Darwin Boedecker-Texas Gun Shows) and ATF. During this meeting, APD along with ATF offered to all parties, recommendations to curb the illegal activity that had been documented in the past. At the conclusion of the meeting the lessee agreed that the recommendations should be followed and instructed their sub-lessee to follow the recommendations. The sub-lessee then informed the event promoter to implement the recommendations at the next show. The recommendations that the lessee directed the sub-lessee and the event promoter to follow were:

1. Only licensed gun dealers are allowed to sell firearms at the gun shows
2. The promoter will provide on-site security to prevent parking lot gun sales

3. The promoter will define a process for people other than licensed dealers that show up with a gun that they want to sell

There was an understanding that the January 16-17, 2010 gun show would follow these recommendations.

**Media Advisory:** APD personnel will be available for an interview at 3:00 pm today at the headquarters building. Please call PIO if you plan to attend.
